

Jeanne Hunneyball

Designer | Developer | Narrative

Game Design graduate specialising in narrative-driven games and interactive storytelling. Experienced in branching narratives, character-driven experiences, dialogue systems, and gameplay that reinforces story, with hands-on experience using Ren'Py, Twine, Unity, C#, and Python.

Skills

Narrative Design

Branching narrative & player choice
Character development
Narrative pacing

Tools & Technologies

Ren'Py, Unity, Unreal, Python, C#
Jira, Confluence, Trello, Slack

Game Design

Gameplay systems
Narrative-mechanics integration
Prototyping & Playtesting

Production

Cross-discipline collaboration
Project planning
Task tracking & Workflow design

Projects

Reel Feelings! - Narrative Designer / Game Designer / Programmer

Ren'Py / Python / Pygame

- Designed and implemented a narrative-driven reverse-mermaid dating simulator centred on character routes, player choice, relationship systems, and multiple endings.
- Wrote character-driven dialogue and developed distinct emotional arcs, integrating character traits, awareness, and affection into route progression.
- Designed and implemented an optional fishing minigame in Python/Pygame, using gameplay mechanics and environmental storytelling to expand the world beyond the visual novel.
- Managed development through iterative prototyping, playtesting, documentation, and version control.

Shrimpscroller - Solo Game Designer / Developer

Unity / C#

- Designed and developed a nature-themed 2D shooter centred on a pistol shrimp using sonic booms as its core mechanic.
- Managed the project from concept and prototyping through implementation, playtesting, and iteration.

Some Postman - Narrative Designer / Developer

Twine

- Designed an interactive narrative focused on player choice, branching routes, and consequences.

Spare Parts - Game Designer / Programmer

C# / .NET

- Designed and developed a terminal-based exploration and riddle game focused on player discovery and problem solving.

Education

Birmingham City University 2026

BA (Hons) Video Game Design

First-Class Honours

Ludlow Sixth Form College 2011

BTEC Web Design

Distinction

A Levels

Photography - A | English - B

Professional Experience

Founder / Logistics Manager - Lumastar

2013–Present

- Manage the planning, preparation, transport, and operation of technical equipment for live events.
- Coordinate logistics, scheduling, client communication, and delivery across multiple moving parts.
- Maintain equipment and inventory systems to ensure operational readiness.
- Adapt plans and workflows to changing requirements in time-sensitive environments.

Finance Assistant - The Stage Bus

2019–Present

- Manage invoicing, payment tracking, and VAT documentation using QuickBooks.
- Work independently while coordinating with a small team to resolve administrative and operational tasks.

Bookseller - Pocketshop

2016–2017

- Provided personalised book recommendations based on individual customer interests.
- Developed strong communication, audience awareness, and customer service skills.
